- Ability to interact with patients and staff from a variety of diverse cultural and ethnic backgrounds.
- Accurate and concise medical documentation skills, including use of electronic medical records.
- Read, write, speak, and understand English for the purpose of following written policies and procedures, completion of reports, and communicating with others in a work setting.
- Effectively communicate orally and in writing.
- Excellent organizational skills.
- Able to use computers, word-processing, nutrient analysis, and database software, specifically Microsoft Office Suite software, electronic medical records programs, lab data programs.
- Understand, adapt to, apply, and communicate policy and procedural changes.
Approach work requirements in a methodical and conscientious manner.
Prioritize tasks and follow them through to completion in a timely manner, with minimal supervision.
Manage multiple tasks simultaneously.
Consistently arrive at work on time, and maintain excellent attendance.
Identify, assess, and resolve problems in a timely fashion.
React calmly and effectively in emergency situations.
Maintain quality control standards.
Follow the organization’s policies and procedures.
Maintain work area in a neat and orderly manner.

**ESSENTIAL FUNCTIONS**

- Educate assigned new patients on prescribed renal diet.
- Perform nutritional assessments on all assigned patients per Departmental Standards of Care.
- Monitor patient labs and dialysis adequacy for accuracy in collection.
- Review lab results, dialysis adequacy, fluid weight status, and nutrition concerns with assigned patients on monthly basis, and educate regarding appropriate nutrition related changes.
- Document monthly nutrition progress notes in medical record.
- Monitor critical labs, notify MD, RN, and document interventions per Critical Lab policy.
- Provide any additional counseling per request.
- Monitor need for oral supplements, enteral or parenteral support, and facilitate initiation.
- Make recommendations regarding nutritional related medications as appropriate.
- Participate in monthly Patient Care Conferences (PCC).
- Track Nutrition related QAPI data, participate in QAPI meetings and QAPI projects.
- Teach Healthy Options classes per class schedule.

**OTHER FUNCTIONS**

- Precept renal dietitian students doing clinical rotations at PSKC.
- Provide continuing education for staff.
- Serve as a resource person for skilled nursing homes, adult family homes, hospitals, physicians, physician’s support staff, and community organizations.
- Perform home visits as needed.
- Participate in professional activities as appropriate to renal nutrition.
- Other duties and/or tasks that may be assigned on an as-needed basis

**REQUIREMENTS**

**Physical Demands**
- Writing up to 50% of the time.
- Manual dexterity sufficient to write, type, and use a telephone, calculator.
- Use a computer for up to five hours at a time.
- Sitting for prolonged periods of time.
- Lifting up to 20 pounds of nutritional supplements at a time.
- Walking and standing for several hours at a time, while communicating with staff and patients.
- Talking, hearing, and vision are required for communication with staff, patients, and visitors, including phone conversations.

**Mental Demands**

- Determining and communicating departmental needs.
- Occasional stress due to work demands.
- Flexible, able to adapt to changing needs of patients.
- Able to work within an active clinic environment, with the distractions of dialysis and emergency situations.
- Perform nutritional calculations using algebraic calculations.
- Occasional stress from dealing with chronically ill people.
- Apply educational and practical experience in performing accurate and complete nutritional assessments.
- Evaluating appropriateness of documentation.

**Other Requirements**

- Work at any PSKC facility.
- May require occasional flexible schedule to meet patient needs.
- Have access to reliable transportation to work sites.
- Compliance with all PSKC policies and procedures.
- Maintain confidentiality of patient records and employee information.
- Successfully complete mandatory in-service trainings.
- Ability to maintain professional relationships and boundaries with patients.
- Dedication to professionalism, maturity, caring, and diplomacy.
- Continue to improve knowledge base on renal and other related conditions by reading journal articles, attending PSKC in-services, attending conferences, etc.

**EQUIPMENT & SOFTWARE USED**

- Computer and computer-related equipment.
- Microsoft Office software.
- Facsimile and copy machines.
- Telephone.
- Other equipment and tools necessary to perform the functions of the position.

**WORK ENVIRONMENT**

- Regularly exposed to the risk of bloodborne, respiratory, and airborne diseases.
- Exposure to industrial and pharmacological hazards as defined in various Safety Data Sheets (SDS).
- Contact with patients under a wide variety of circumstances, including unpredictable situations.
- The work environment is a combination of a relatively quiet office and busy treatment area.

**JOB RELATIONSHIPS**

Supervision by: Director, Renal Nutrition Services
